

# ASG-TMON® PERFORMANCE ANALYZER FOR Z/OS

Modeling Suite

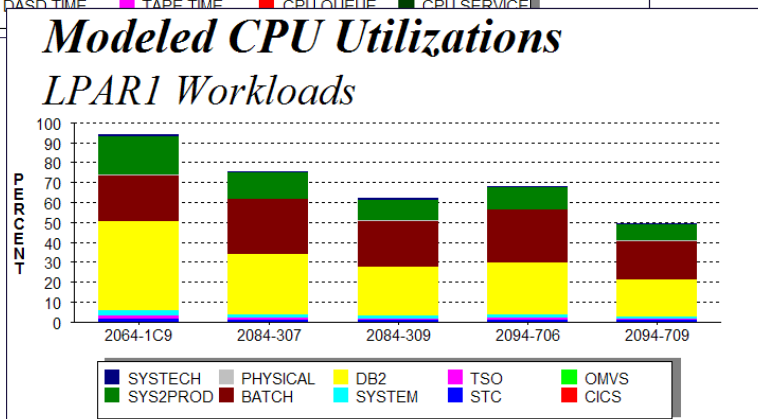

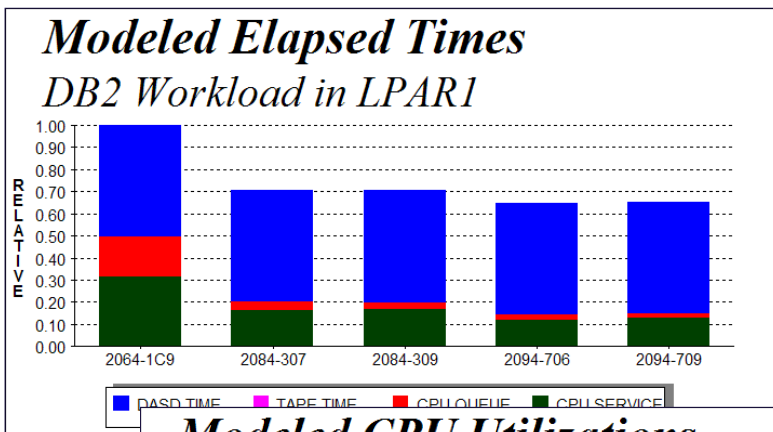

## OVERVIEW

The ASG-TMON® PA for z/OS Modeling Suite provides a powerful blend of analytical and simulation modeling capabilities, enabling organizations to understand the impact of change at the workload level before actual implementation, and prevent costly outages or acquisition of incorrect resources. Foresee the impact of changes to the processor(s), workload intensities, I/O response times, and activity in other logical partitions.

The Modeling Suite is an ASG-TMON® PA for z/OS option. It allows organizations to understand and address the impact of technology and growth before it happens, including Capacity on Demand. It offers reduced risk through informed decision making. Complexity turns into clarity for all levels of IT management through easy to understand reports and graphical representations. And built-in sophistication enables IT professionals of varied skilled levels to obtain targeted answers.

## BENEFITS

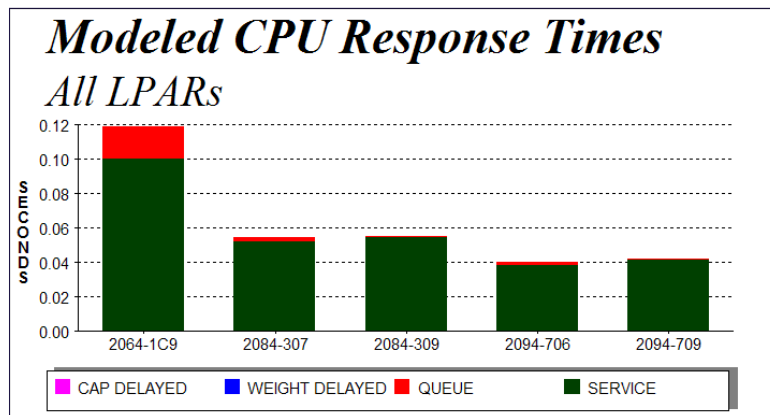

- Anticipate business impact to service levels caused by new applications, worst-case spikes, and/or unique, company-dependant IT growth characteristics
- Easy to learn and use—no difficult syntax, no coding of algorithms; the focus is on results not wrestling with data
- Quantify and present alternative options
- Simulation modeling allows for easy multi-LPAR planning and impact analysis
- Foresee system impact of changes to the processor(s), workload intensities, I/O response times, and activity in other LPARs
- Straightforward model definitions

## ASG-TMON® PA ANALYST

ASG-TMON® PA for z/OS Modeling Suite includes ASG-TMON® PA Analyst, a powerful, Microsoft Windows-based analysis tool. ASG-TMON® PA Analyst is an easy to use desktop solution that simplifies access to charts and tools using an intuitive Navigator and Data Selector. Here is a sampling of just a few of ASG-TMON® PA Analyst's features:

- Chart Customization is simple using ASG-TMON® PA's SmartChart point and click feature. Change the charts to reflect specific needs. Add notations, change the colors, styles, etc.
- Powerful Scripting allows reporting and analysis to be automated, eliminating expense and tedium
- Web-based reporting makes it easy to put reports on the intranet or extranet for on-demand access
- Data Organization - Keep data organized by system and period to efficiently handle months, weeks, and days
- Platform Integration - ASG-TMON® PA Analyst integrates all the platforms right in the same analysis tool. Learn it for one platform, learn it for all platforms.
- Desktop Integration - Results can be saved, printed or exported to spreadsheet or presentation packages with point and click ease
